

# DYNACLIP FORTE®

BONE FIXATION SYSTEM

**Forte (n.):** Strength, excels in a specific area

STAPLE SYSTEM

The **DynaClip Forte® Bone Fixation System** excels in performance, comfort, and reliability. Designed for the most demanding weight-bearing applications, the 4-leg configuration with a broad bridge provides additional compression and rotational stability, representing the ultimate in NiTiNOL staples.

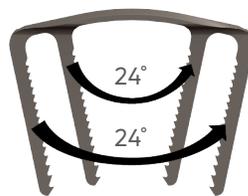

COMPATIBLE FOR  
USE WITH THE 2-LEG  
DYNACLIP®

## FEATURES & BENEFITS

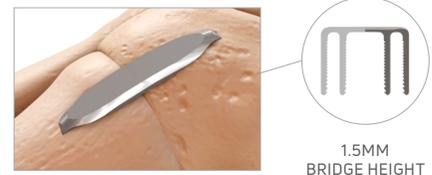

### ENHANCED DURABILITY

DynaClip Forte's patented design places stresses across the bridge and away from the legs, improving resistance to failure post-surgery.<sup>1</sup>

### MAXIMIZED COMPRESSION

Increased bridge curvature allows for compression generation through bridge, not just legs.<sup>1</sup>

### LOW PROFILE

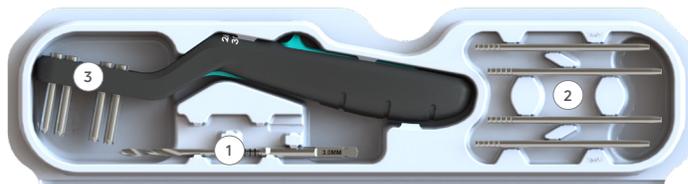

Low-profile, tapered bridge eliminates any prominence or patient irritation.

## EFFICIENT INSTRUMENTATION

### DISPOSABLE PROCEDURE PACK

All instrumentation comes packaged in one sterile kit, designed to eliminate waste and improve efficiency in the OR. No need to open multiple packs.

1. 3mm Drill (1)
2. 3mm Locator Pins (4)
3. Universal Drill Guide

UNIVERSAL DRILL GUIDE  
SERVES AS SIZER & DRILL  
GUIDE

### LOW-PROFILE DISPOSABLE INSERTER

DynaClip Forte® comes pre-loaded on a disposable Inserter that empowers:

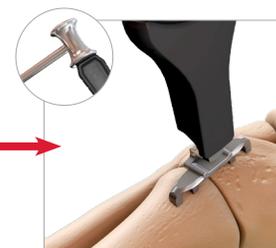

- Simple, intuitive deployment.
- Accurate leg positioning every time.
- No adjusting needed in the OR. Simply insert and deploy.
