

# Foot & Ankle Wedge Family

Featuring TIDAL Technology

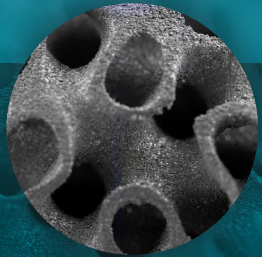

Bone Fixation for Fractures or Osteotomies

restor3d

## TIDAL Technology

Optimized porous architecture designed for osseointegration

- 100% Interconnectivity and up to 80% porosity<sup>1</sup>
- Mesoscale pores support graft retention and bony ingrowth<sup>2</sup>
- Direct bony apposition to implant surface guided by surface topography and curvature demonstrated in preclinical model<sup>2,3</sup>
